

General Description

You will **create** wireframes and final mockups for TravelSure's front page. The hero section should instantly convey "travel booking" with an appealing image or illustration. Include a short tagline and a CTA button that leads users deeper into the site. If relevant, show how the nav bar and footer might look, at least in placeholder form.

What the Freelancer Needs / Requirements

- **Design Tool**
 - Figma, Sketch, XD, etc.
- **Brand Identity**
 - Use the color palette and fonts from UI/UX #1.
- **Hero Imagery**
 - A large travel-related banner (mountains, planes, beaches, etc.).
 - Crisp text or tagline.
- **CTA**
 - "Plan Your Trip," "Explore Packages," or something that stands out.

Task Description

1. **Task 1**
 - **Wireframe Homepage Layout:** Show hero at top, short subheading, central CTA.
 - Possibly a small "Popular Destinations" or "How It Works" section below.
2. **Task 2**
 - **High-Fidelity Mockup:** Apply brand colors/fonts.
 - Insert a travel-themed background image or placeholder in the hero.
 - Label font sizes, margins.
3. **Task 3**
 - **Export & Annotation:** Provide a design file or PDF.
 - Optional mobile variant if time allows.
 - Note recommended sizes for images, headings, etc.
