General Description

You will **create** wireframes and mockups specifically for a **mobile** scenario in FitSure. The user sees upcoming classes in a list, taps one to see "Check In" or a QR code. This ensures a rapid flow so they can enter the class without friction. Align with brand from Task 1, but in a mobile environment.

What the Freelancer Needs / Requirements

- **Design Software**
  - Figma, Sketch, etc., focusing on phone frames.
- **Class Check-In**
  - A short screen listing classes with "Check In" next to them. Possibly a QR code screen.
- **Styling**
  - Must be minimal, brand-friendly, large tap targets for phone usage.

Task Description

1. **Task 1**
   - **Wireframe Mobile Check-In**
     - A list of booked classes, each with a button or link for check-in.
2. **Task 2**
   - **High-Fidelity Mockup**
     - Show brand colors, large button. Possibly a success message or QR code.
3. **Task 3**
   - **Export & Docs**
     - Provide final design.
     - Mention how "scanned" status or "already checked in" might appear.
