General Description

You will **create** wireframes and mockups for how users input their address or location and see a list of available restaurants. Each restaurant card might show a name, cuisine type, rating, and "View Menu" button. This might follow after the homepage CTA.

What the Freelancer Needs / Requirements

- **Design Software**: Figma, Sketch, etc.
- **Location Input**: A minimal form for user address or ZIP code.
- **Restaurant Listing**: Cards or list items with name, cuisine, rating, short tagline.
- **Filters**: Possibly a dropdown for cuisine type or sorting by rating.

Task Description

1. **Task 1**
   ○ **Wireframe the Location Input**
      ■ A minimal page or modal requesting address or ZIP.
      ■ A "Find Restaurants" button.
2. **Task 2**
   ○ **Restaurant List Mockup**
      ■ Cards showing restaurant image, name, cuisine, rating, "View Menu."
      ■ Possibly a top filter bar (cuisine, rating).
3. **Task 3**
   ○ **Document & Export**
      ■ Provide final design.
      ■ Indicate recommended card sizes, spacing, brand colors.
