

## General Description

You will **create** wireframes and final mockups for searching or filtering local gyms/studios. A user might type in their ZIP code or city, see a list of results with short summaries. Possibly allow filtering by “Yoga,” “Cardio,” “Pilates,” etc. Keep brand style from Task 1.

## What the Freelancer Needs / Requirements

- **Design Tool**
  - Figma, Sketch, etc.
- **Location/Filter**
  - A top bar or side panel for location input, specialized classes.
- **Gym Listing**
  - Cards or a list with gym name, rating, distance, a short tagline, “View Classes” button.
- **Styling**
  - Use brand from Task 1.

## Task Description

1. **Task 1**
  - **Wireframe Gym Search**
    - A location input or city dropdown, filter checkboxes for class type, rating.
2. **Task 2**
  - **High-Fidelity Listing**
    - Show each gym card with image, name, rating, “View Details.”
3. **Task 3**
  - **Export & Explanation**
    - Provide final design.
    - Possibly note a “No gyms found” scenario or advanced filter states.
