

## General Description

You will **create** wireframes and hi-fi mockups for a single restaurant's menu page. Each dish is a card or row with an image (if available), price, short description, an "Add" or quantity selector. Keep brand styling consistent, referencing previous tasks.

## What the Freelancer Needs / Requirements

- **Design Software**
  - Figma, Sketch, etc.
- **Menu Layout**
  - Possibly a tab or subheading for categories ("Starters," "Mains," "Desserts").
- **Dish Cards**
  - Photo, name, short desc, price, "Add to Cart."
- **Styling**
  - Use brand from Task 1 if ready.

## Task Description

1. **Task 1**
  - **Wireframe the Menu Layout**
    - Possibly a top banner for the restaurant's name/cover image.
    - List of sections or categories.
2. **Task 2**
  - **High-Fidelity Dish Cards**
    - Each item has a small photo, name, short desc, price, and an "Add" button.
    - Possibly handle variants (like spice level or size) if time.
3. **Task 3**
  - **Export & Document**
    - Provide final designs, recommended spacing.
    - If time, show an alternative "out of stock" state for a dish.
